

10/045,901

In the Specification:

At page 18, please amend the paragraph beginning at line 8 as follows:

—There are at least two methods for achieving stereoscopic (3D) viewing similar approach to line blanking methods previously used. The line blanking systems are disclosed in previous applications by the inventors including Ser. No. 09/164,050 filed on Sep. 30, 1998, U.S. Pat. No. 6,456,432 issued Sept. 24, 2002 entitled “Stereoscopic 3-D Viewing System With Portable Electro-Optical Viewing Glasses and Shutter-State Control Signal Transmitter Having Multiple Modes of Operation for Stereoscopic Viewing of 3-D Images Displayed in Different”, Ser. No. _____10/110,265 filed on Oct. 5, 2000 (which is related to PCT/US00/27446) entitled “3D Shutter Glass and Line Blanker System”, and Ser. No. 09/269,990 filed on Apr. 22, 1999 entitled “Line Blanker System” and U.S. Pat. No. 5,821,989 issued on Oct. 13, 1998 entitled “Stereoscopic 3-D Viewing System and Glasses Having Electrooptical Shutters Controlled by Control Signals Produced Using Horizontal Pulse Detection Within the Vertical Synchronization Pulse Period of Computer Generated Video Signals”. All of these are hereby incorporated by reference.—

At page 65, line 10, please amend the last sentence as follows:

— Table 8 tabulates the truth table for this system.
